retail therapy

IF you're familiar with Carlisle, you may already know John Chapman Ltd, the maker of the rather famous handcrafted, all UK sourced, cotton canvas and leather bags. They're mainly known for sporting bags but also for leisure and business. Now under new ownership comes a new fashion direction, yet still with the same traditional on-site hand cut manufacturing methods. This is the day shoulder bag, £119, in pink stone (also coral rose, black, chocolate brown and tweed) which is ample for day to day use and smart enough for business trips and its size is cabin baggage compliant. But for proper travel we like the small traveller holdall, £275, which is in a rather fabulous Antibes green (lime) and French pink. Buy online at www.chapmanbags.com
